

AKUSTRÄ

by AROVA®

Akusträ, a translation for acoustic is a brand by Arova where we supply a range of in-house manufactured acoustic panels.

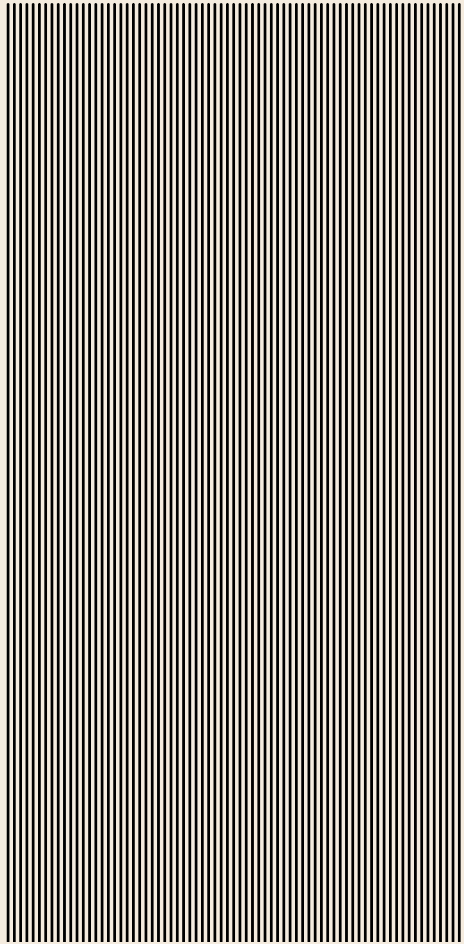

With a variety of 4 different cutting patterns, Akusträ differentiates itself from other acoustic panels by having a choice of more than 450 decorative surfaces complementing the cutting patterns.

Akusträ panels are available in the standard size of 4ft by 8ft (1220mm by 2440mm), carrying the Green Label and Green Guard certification for low toxic emissions from the Singapore Environment Council.

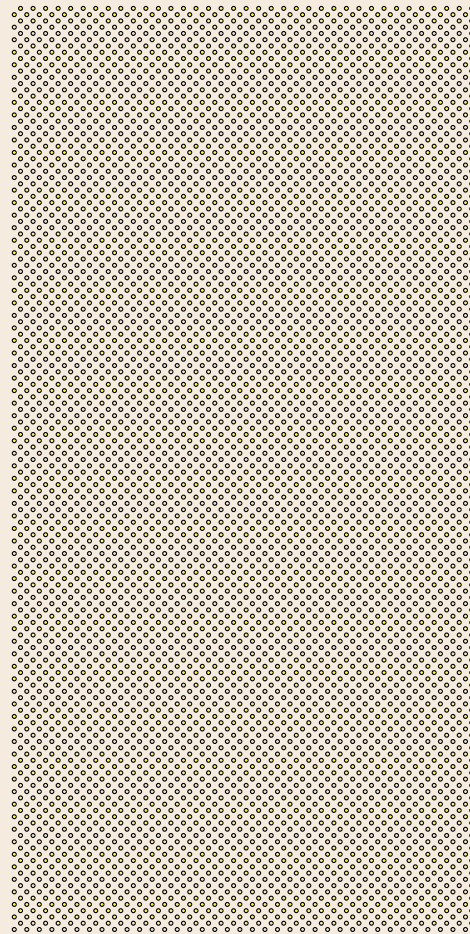

Furthermore, Akusträ panels achieve one of the highest sound absorption in the market with a noise reduction coefficient (NRC) 0.9 tested under TÜV SÜD.
